Summary

AI/GenAI Engineer with 3+ years building and shipping production systems — RAG pipelines, generative AI agents, and payment infrastructure — for enterprise clients and high-scale consumer platforms. Experienced working directly with client requirements (VISA, e-commerce merchants) to deliver fast, production-ready solutions.

Experience

Grid Dynamics Hyderabad, India
AI Engineer – Generative AI *Jul 2025 – Aug 2026*

- Built and deployed **generative AI agents for VISA**, working directly with client requirements to deliver a production system used by **200–300 users**.
- Developed a separate internal developer-assistance GenAI tool, saving the engineering org approximately **40 hours per week** in manual effort.
- Developed production-ready **RAG pipelines** using **pgvector** and OpenAI APIs, achieving **80% retrieval accuracy**.
- Built an internal **scenario-building dashboard** using **Next.js and React**, adopted by **300–400 developers**, enabling self-serve creation and visualization of AI scenarios.

Paysecure Jaipur, India
Software Engineer *Feb 2025 – Jun 2025*

- Built a production-ready **Shopify payment gateway plugin** using Node.js and App Proxy, enabling secure redirect-based payment flows for **40 merchants**.
- Delivered payment integrations for **BigCommerce and WooCommerce**, expanding platform coverage to 3 major e-commerce ecosystems.
- Built a Streamlit chatbot backed by **pgvector and OpenAI APIs**, improving merchant and employee support response times by **60%**.
- Developed a **Redis-based cashier settings utility in Java** for monolithic services, improving performance and reliability.

Zomato Gurgaon, India
Software Engineer *Dec 2022 – Nov 2024*

- Designed and deployed the **Parchi Orders** system for HyperPure, streamlining order dispatch and fulfillment and managing approximately **70% of company GMV**.
- Migrated invoice extraction to an in-house OCR system, reducing cost per invoice by over **80%**, from INR 35 to INR 5.
- Built an evaluation framework for **Generative AI bots** deployed to **100% of app users**, improving customer interaction quality to **80%**.
- Integrated regional languages into the Zomato app, enabling dual-language support and contributing to a **1–2% increase in daily average orders**.
- Built automated expiry-date extraction, reducing manual review time for account managers by **35 hours per week**.

Education

Indira Gandhi Delhi Technical University for Women Delhi, India
Bachelor of Technology in Information Technology; CGPA: 8.01 *Aug 2019 – May 2023*

Technical Skills

Languages: Python, Java, JavaScript, SQL
AI / GenAI: LLMs, RAG, Prompt Engineering, Fine-Tuning, pgvector, Agentic Systems
Backend: REST APIs, Redis, PostgreSQL, Node.js
Frontend: React, Next.js, Streamlit
Cloud / DevOps: Docker, Kubernetes, CI/CD
Core: Data Structures & Algorithms, System Design, DBMS, OOP, Computer Networks, Machine Learning
